jean,
go a really
foxy looking girl.
who I'm glad I got to
meet. I hope we get to
know each other a lot better in
the future. Take life slow and easy,
and see ya around.

1976. The

MCJVS has now been operating for five years. That's five years of preparing students to take a responsible position in the world of work. We here at the MCJVS are students who have taken a serious look at ourselves and our future trying to see the kind of people we want to be.

In the future years we may reflect back; laughing, perhaps even crying, remembering who we are, what we did, and the change in our lives.

Yes, students at the MCJVS are looking ahead; but it won't be long before we'll be looking back--
in RETROSPECT . . .

It is only ten years old, but already reaching the 250,000 mark nationwide. In our local chapter, at MCJVS, there are 47-48 separate clubs who all attend the VICA chapter meetings. HERO (taking the name from the first letters of Home Economics Related Occupations) is one of the two branches of the national organization of Future Homemakers of America. HERO is the youth organization for home economic students in vocational schools, placing major emphasis on preparation for jobs and careers in specific occupational areas.

Hero began in Ohio during the 1971-1972 school year when it was established by vote of affiliated HERO-FHA members. At present time there are 79 HERO-FHA chapters in Ohio, including ours, which was the first chapter founded.

HEROes are the youth of today involved in a search for direction, for a full and useful life. Through the various ways of displaying job, leadership, and human relations skills, they encounter many facets of themselves as they look for meaningful, satisfying jobs to complement their desires, abilities, and personalities.

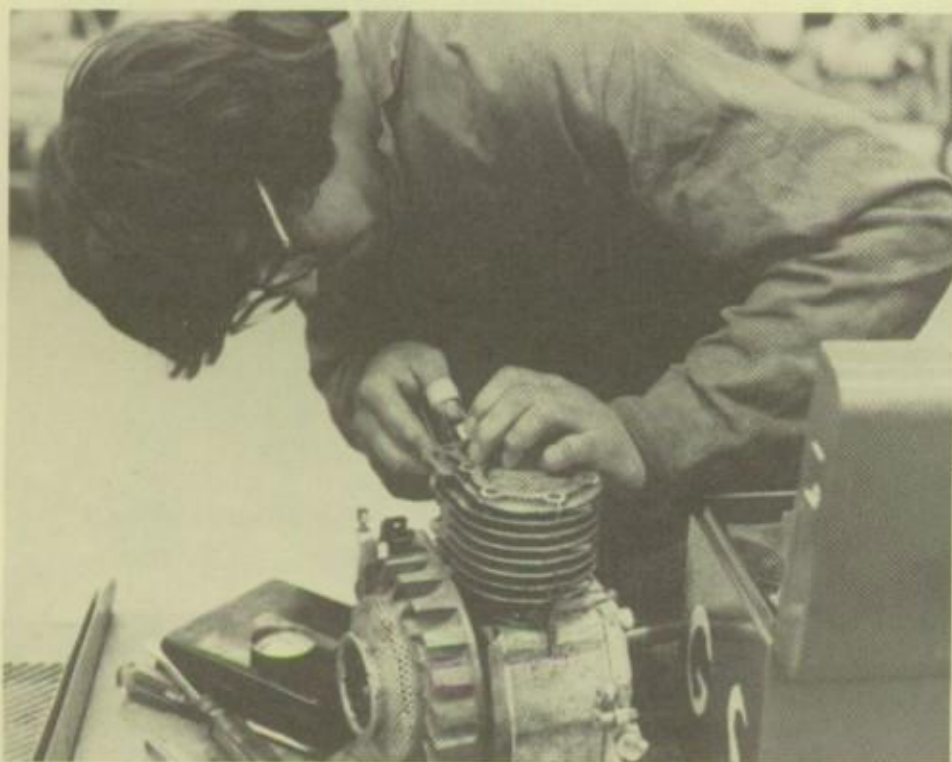

FFA

The FFA is intra-curricular and originated as a part of the high school vocational agriculture curriculum. FFA activities encourage members to learn through active participation, how to conduct and take part in public meetings; to speak in public; to buy and sell cooperatively; to solve their own problems; to finance themselves and to assume civic responsibility.

The Montgomery County Joint Vocational School offers six program areas of instruction which are: Agriculture Mechanics, Environmental Science, Farm Management, Horticulture, Small Animal Care, and Small Engine. Each program area has an organization club with elected officers. The clubs provide leadership training for all students on a personal basis with their own club activities. At the same time, all six clubs form one FFA chapter. The chapter unifies the training of members by offering local, state, and national activities.

FFA OFFICERS LEFT TO RIGHT: Sharon Snyder--Secretary, Larry Seibel--President, Sharon Chambers--Historian, Cheryl Bowman--Vice-President, Mike Buchanan--Sentinel, Patty Mescher--Treasurer.

OEA

OEA is a youth club specifically for students enrolled in Vocational Business Education Programs. Each of the business programs at Montgomery County Joint Vocational School participates in this club.

The purposes of OEA include:

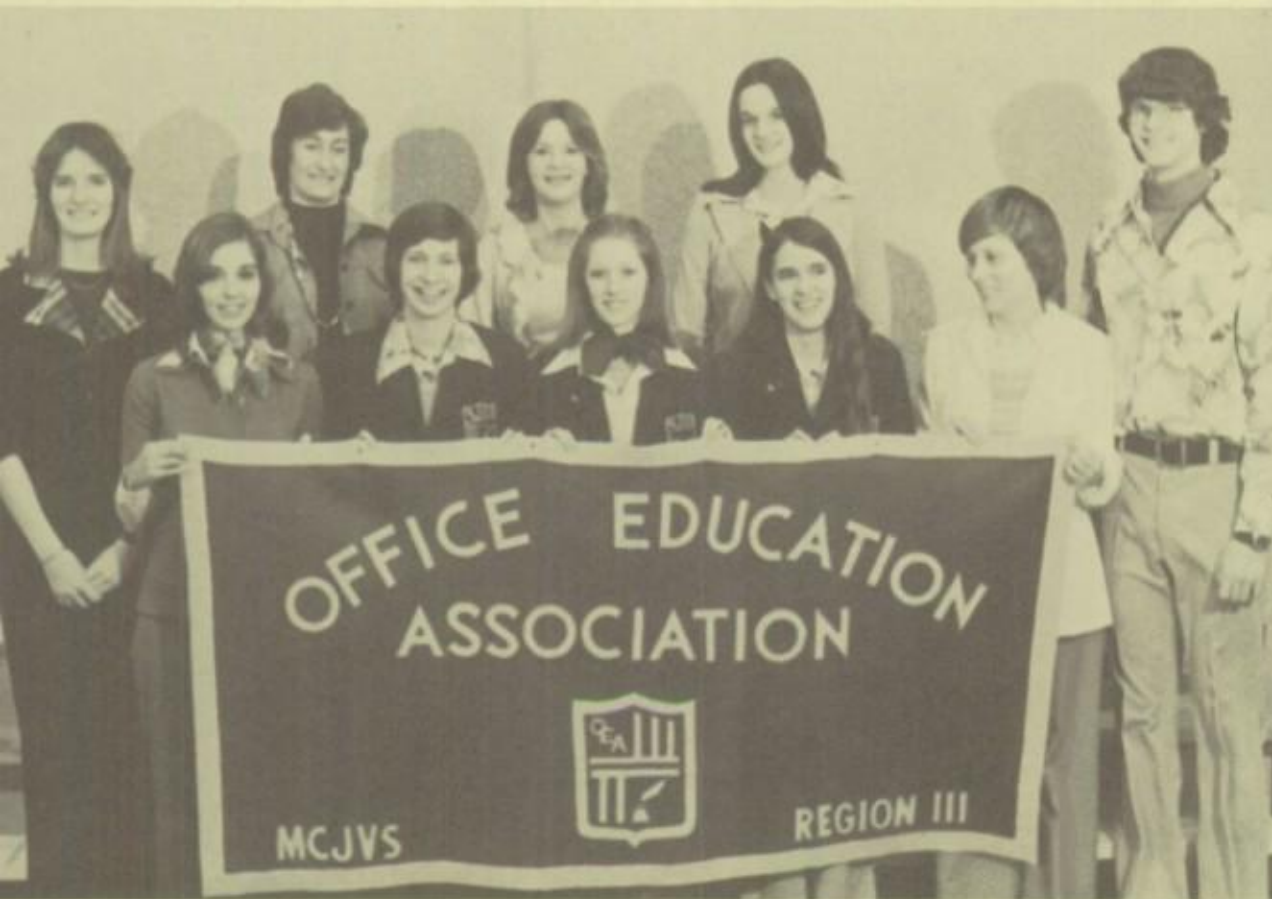

To assist local club members in the growth and development of their purposes.

To unite in a common professional bond without regard to race, creed, or national origin of students enrolled in classes with office employment as their objective.

To develop leadership abilities through participation in vocational education, civic, recreational, and social activities.

To develop the ability of students to plan together, organize and carry out worthy activities and projects through the use of the democratic processes.

To foster an understanding of the functions of labor and management organizations in the American free enterprise system.
